20a. How does the Committee accomplish its purpose?

This committee provides recommendations to the National Coordinator for Health Information Technology on a policy framework to advance an interoperable health information technology infrastructure. This includes standards, implementation specifications, and certain criteria and order of priority for development, harmonization, and recognition of such standards, specifications and certification criteria.

20b. How does the Committee balance its membership?

The Committee shall be comprised of the following, and represent a balance among various sectors of the health care system so that no single sector unduly influences the recommendations of the Committee. Committee membership shall include at least 25 non-federal members and shall be appointed in the following manner: No fewer than 2 members are advocates for patients or consumers of health information technology; 3 members are appointed by the Secretary of HHS, 1 of whom shall be appointed to represent the Department of Health and Human Services; 1 of whom shall be a public health official; 2 members are appointed by the majority leader of the Senate; 2 members are appointed by the minority leader of the Senate; 2 members are appointed by the Speaker of the House of Representatives; 2 members are appointed by the minority leader of the House of Representatives; Other members are appointed by the Comptroller General of the United States. These members must at least reflect providers, ancillary health care workers, consumers, purchasers, health plans, health information technology developers, researchers, patients, relevant Federal agencies, and individuals with technical expertise on health care quality, system functions, privacy, security, and on the electronic exchange and use of health information, including the use standards for such activity. Non-federal members of the Committee are classified as representatives. These individuals are appointed for the sole purpose of providing the perspective of the area of expertise they have been appointed to represent. As such, alternates will not be allowed to stand-in for representative members selected for their own personal expertise and not the organization he/she represents.

20c. How frequent and relevant are the Committee Meetings?

The committee meets monthly, on average either virtually or in-person.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The committee is a requirement under the 21st Century Cures Act and will hold open, public meetings and hearings.

20e. Why is it necessary to close and/or partially closed committee meetings?

Not Applicable

21. Remarks

In accordance with the 21st Century Cures Act, this advisory committee replaces both the HIT Standards Committee (# 43018) and the HIT Policy Committee (#43019).

Narrative Description

The Health Information Technology Advisory Committee is charged with recommending to the National Coordinator for Health Information Technology a policy framework for the development and adoption of a nationwide health information technology infrastructure that permits the electronic exchange and use of health information as is consistent with the Federal Health Information Technology Strategic Plan and that includes recommendations on the areas in which standards, implementation specifications, and certification criteria are needed. The Health Information Technology Advisory Committee is also charged with recommending to the National Coordinator an order of priority for the development, harmonization, and recognition of such standards, specifications, and certification criteria for those areas of Health Information Technology policy under its purview as specified in Section 3002 of the PHSA, as amended.
